## About Slovakia and Bratislava

Slovakia is a lovely country in the heart of Europe, famous for the beautiful Tatra mountains, for its ancient towns and castles, the national parks and fine ski resorts. Bratislava is the capital and largest city of Slovakia. Despite not being a metropolis, the city has a rich past and a special charm thanks to its ancient architecture and its streets, alleys and squares filled with history. Visitors can choose from a number of nice restaurants, vineries, pubs and bars with authentic Slovak cuisine, good wine and traditional Slovak beers. A castle lies on the hilltop overlooking the Danube river, giving very nice views over Bratislava to Austria.

## Climate and weather

Bratislava has a moderately continental climate. In December, the average temperature oscillates between +4°C and -2°C.

## Languages

The official language spoken in Bratislava is Slovak, while English is widely spoken.
